

HRDE Furniture Disposal Acknowledgement

Staff will be asked to wear booties and gloves while prepping the bedbug-affected apartment. Staff will be asked to bring clean clothes and shoes to change into so their potentially affected items can be heat treated. The heat treatment requires placing the clothing in a dryer on high heat for a full, 30-minute dryer cycle.

Manager will require a signed acknowledgement from any resident who will need furniture disposed; furniture must be treated and shrink wrapped before removing from the effected apartment.

The apartment must have all clutter, cardboard boxes, paper products and magazines removed. All dressers and closets must have all items removed for treatment.

I, _____, Apt. _____, would like the following furniture disposed of:
