

**Housing Complexes**  
**Managed by Human Resources Development & Employment, Inc.**

**Guest Policy**

Residents are to admit their guests through the front door only their own guests. Residents are not to admit strangers or the guests of other residents.

Residents must receive permission for guests to stay more than three days and/or nights in any 30-day period. Any exception must have the prior written approval of Management, and this requires an Overnight Visitation Waiver.

No guest will be permitted to stay in a resident's apartment without the resident present.

All residents are responsible for their visitors and guests.

If a guest causes a disruption in the livability of the project for tenants, said guest may be barred from the property. If a tenant allows this guest to visit, this will be grounds for termination of the tenant's lease.
